Issue

Exporting ESET Remote Administrator policies and groups to .xml files for backup or migration

Click here to export **policies**
Click here to export **groups**

Solution

Export policies to an .xml file

Open ERAC by clicking **Start → All Programs → ESET → ESET Remote Administrator Console → ESET Remote Administrator Console**.

Click **Tools → Policy Manager**.

In the **Policy Manager** window, hold **CTRL** and select the policies you want to backup (see Figure 1-1).

Click **Import/Export Policies→ Export**.

Click the image to view larger in new window

Enter a name for your .xml file in the **File name** field and

click **Save**.

Export groups to an .xml file

Click **Tools → Group Manager**.

In the **Group Manager** window hold **CTRL** and select the groups you want to backup (see Figure 2-1).

Select **Export** from the drop-down menu and click **Yes** when prompted.

Figure 2-1

Enter a name for your .xml file in the **File name** field and click **Save**.
