Can I run ESET Mail Security for Microsoft Exchange Server and another 3rd party spam blocker such as Exchange 2007 Antispam agent?

Ondersteuning | ESET Nederland - 2017-11-21 - Comments (0) - ESET Mail Security for Exchange Server

Although it is possible to run multiple antispam solutions simultaneously, ESET recommends disabling other antispam software. The two (or more) programs will not communicate and will result in multiple spam databases.
