Issue

A new version has been released

Version 6 of ESET Remote Administrator (ERA) and ESET business products were released in North America December 11th, 2014, and globally February 25th, 2015. This article applies to version 5.x and earlier ESET business products. For information about what's new in the latest version and how to upgrade, see the following article:

What's new in ESET version 6 business products?

Modify Web control groups from the ESET Remote Administrator Console

Details

Solution

If you do not use ESET Remote Administrator to manage your network

Perform these steps on individual client workstations.

Modify Web control rules using ESET Remote Administrator

1. Open the ESET Remote Administrator Console (ERAC) by clicking **Start → All Programs → ESET → ESET Remote Administrator Console → ESET Remote Administrator Console**.

1. Click **Tools → Policy Manager**. In the **Policy Manager** window select your default policy and click **Edit**.

Click the image to view larger in a new window

3. Use the arrows to add or remove a selected subcategory within a selected group. For example, to add the **Streaming & Downloadable Video** subcategory to Group 1, select the **Entertainment** category → the **Streaming & Downloadable Video** subcategory, click the **Group 1** tab and then click the right arrow. Remove a category or subcategory from a group by clicking that group's tab, selecting the item you wish to remove from that group and clicking the left arrow.

Categories

- There are some subcategories that are not included in predefined groups (for example, Games). To control a subcategory using Web control filter, it must be added to a group.
- A subcategory can belong to only one group. If the subcategory being added is already included in another group, it will be removed and added to the most recently selected group.
- You can also search for a group by entering search terms into the **Search** field located in the bottom left corner of the window.

4. When you are finished, click **OK**, **OK** again and then click **Console** to save your changes.

1. Click **OK** in the **Policy Manager** window.

Perform these steps on an individual client workstation

1. Open the main program window by double-clicking the ESET icon in your Windows notification area or by clicking **Start → All Programs → ESET → ESET Endpoint Security**.

1. Press the **F5** key on your keyboard to open Advanced setup.

1. Expand **Web and email** and click **Web control → Configure rules**.
