ESET PROTECT version 6.1 has been released

2025-01-30 - Steef | ESET Nederland - Comments (0) - Feature release

ESET PROTECT version 6.1 has been released.

Changelog:

- ADDED: New configuration options for ESET MDR customers in Set up protection
- ADDED: Extended list of variables available in the webhook notifications
- ADDED: New report informing about performed vulnerability scans
- ADDED: New report informing about applied patches
- IMPROVED: Ability to view MDR dashboard and reports per customer for MSP administrators
- IMPROVED: Redesign of the Set up protection wizard
- IMPROVED: Ability to fix vulnerabilities with an available patch directly from the Vulnerabilities section (currently available for the Windows platform)
- IMPROVED: Filtering by company instead of static group in Incident-related notifications
- IMPROVED: Direct link to the Audit Log and statistics added to notification informing about Audit Log events
- IMPROVED: New "Suspicious" closed incident resolution
- IMPROVED: New AVRemover version in the Management Agent
- IMPROVED: New Log Collector version in the Management Agent
- REMOVED: 32-bit variants of ESET Management Agent
- REMOVED: Closed incident resolution - "Cancelled"
- FIXED: Insufficient webhook URL length limit for inserting longer URLs
- FIXED: Unable to drag-and-drop computers between groups
- Other minor improvements and bug fixes
