Release Announcement: ESET Security Management Center 7.1.27.1 (all-in-one installer)

2020-03-17 - Steef | ESET Nederland - Comments (0) - Releases

Dear partners,

We have fixed All-in-one installer for ESMC. The problem was only in Apache Tomcat, which can be vulnerable in specific cases (CVE-2020-1938). We upgraded the All-on-one installer (ZIP and ISO), and now it contains a new version that is not vulnerable. There are several ways how customers can patch the vulnerability in the current deployments. These ways are described in the following KB:
