Release Announcement: Direct Endpoint Management plugin for ConnectWise Automate v1.4

2020-01-24 - Steef | ESET Nederland - Comments (0) - Releases

Let me inform you that as of **Wednesday, 22nd of January**, 2020, **minor** version of Direct Endpoint Management plugin for ConnectWise Automate v1.4 has been released. The plugin is updatable directly from within ConnectWise Automate and available for download at ConnectWise Marketplace.

Changelog:

Added: License Management feature that will allow the administrator to connect DEM plugin with EMA2 and manage licenses (usage status and increase/decrease quantity)
Added: ConnectWise Automate Report Center reports which bring 9 out-of-the-box monitoring templates
Added: New Column in OVERVIEW shows COMPUTER OS
Added: "Automatic Refresh" check box to lists and charts
Added: EVENT LOG now shows events for successful/unsuccessful Policy Application
Added: Double clicking a chart in the dashboard will display a pre-filtered view of the selected section
Added: New option in settings to hide endpoints according to clients/locations from being displayed in the OVERVIEW and COMPUTERS page
Added: New Monitor that can detect “License Expired”

Changed: Ability to select and edit multiple licenses at the same time
Changed: Additional info in threat logs
Changed: Additional info in scan logs
Changed: When ordering a table by pressing a column header, the table now scrolls to top

Fixed: Mac deployment failure
Fixed: in Threat logs, threat object URIs are no longer encoded
Fixed: Non-ASCII characters displayed incorrectly in Protection Status
Fixed: News page
Fixed: Other minor issues
