Download link: https://www.eset.com/int/business/endpoint-encryption/download/#client

What is new/ has changed in EEE Client 5.0.6

- *Fixed: EEE can now be installed on Windows XP*
- *Fixed: SSO now works on a system using OPAL+TPM encryption*
- *Fixed: Resolved issues where some systems would crash when entering or coming out of sleep whilst OPAL encrypted*
- *Fixed: Resolved an issue where some drives would display error "0xC00B004F" after being re-encrypted with OPAL*
- *Fixed: The show password icon in the bootloader is now functional*
- *Fixed: Fixed an issue where systems would crash when the system starts FDE - As seen with ADATA - SP920SS drives*
- *Improved: Support for firmware TPMs improved*
- *Improved: Will check OPAL decryption can take place before attempting decryption*
