Release announcement: ESET File Security for Microsoft Windows Server 7.1.12010 (Hotfix)

2020-04-15 - Steef | ESET Nederland - Comments (0) - Servicing release

Dear all,

this is to inform you that we have successfully published the hotfix release of **ESET File Security 7.1 for Microsoft Windows Server** and the installation binaries are henceforth available online on our global website and in the software repository of ESET Security Management Center.

Change-log:

- Fixed: Product activation using administrative account via eShell.
- Fixed: Scheduled product module updates might stop executing after product upgrade between version 6 and 7.
- Fixed: Obsolete registry entries of network attack protection module can block product upgrade process.
- Fixed: Under certain circumstances eShell can crash on servers without GUI (Server Core).

Known issues:

- Computer scanning logs filtering shows no results for searched strings.

Build version: **7.1.12010.0, 7.1.12010.1**
