Issue

Schedule client workstations to download virus signature database updates at a specific time from the ESET Remote Administrator Console

Solution

1. Open the ESET Remote Administrator Console (ERAC) by clicking **Start** → **All Programs** → **ESET** → **ESET Remote Administrator Console** → **ESET Remote Administrator Console**, or by double-clicking the ERAC icon on your desktop.
2. Click **Tools** → **Policy Manager**.
3. Select the policy you want to modify and click **Edit**.

Figure 1-1

4. In the ESET Configuration Editor, expand **Windows desktop v5** → **Kernel** → **Settings** → **Scheduler/Planner**.
5. Expand **Scheduler/Planner**, select **Scheduler/Planner: Total 0/0 (tasks/to delete)** and click **Edit**.

Click the image to view larger in new window

6. Click **Default**, select **Regular automatic update** and then click **OK**.

Figure 1-3

7. Deselect the check box next to **Regular automatic update** and click **Add**.

Figure 1-4

8. Select **Update** from the **Scheduled task** drop-down menu and click **Next**.

Figure 1-5

9. Type a name for the task into the **Task name** field, select your desired frequency and then click **Next**.

Figure 1-6

10. Select the specific time that you would like the update to run and then click **Next**.

Figure 1-7

11. Select your desired option in the **If the task did not run** section and then click **Next**.

Figure 1-8

12. Click **Finish**.

13. Type a descriptive name into the **Description** field and click **OK**.

Figure 1-9

14. Click **OK** to exit the **Scheduled tasks** window.

Figure 1-10

15. Click **Console**, click **Yes** to save your changes and then click **OK** to exit Policy Manager.
