Release announcement: ESET PROTECT 8.1 (hotfix)

2021-08-24 - Steef | ESET Nederland - Comments (0) - Servicing release

We want to confirm the successful release of the hotfix for **ESET PROTECT 8.1**.

We have only replaced Apache HTTP Proxy (v 2.4.46) with the newer version (v 2.4.48) due to discovered vulnerabilities in the older one.
So we have released the new all-in-one installer (.zip and .iso) and standalone installer for Apache HTTP Proxy. Update of this component is necessary to do manually by running standalone installer or all-in-one installer on ESET PROTECT server.

Changelog

- FIXED: Apache HTTP Proxy (v 2.4.46) replaced with the newer version (v 2.4.48) due to discovered vulnerabilities in the older version

Product: ESET PROTECT
