A new version has been released

Version 6 of ESET Remote Administrator (ERA) and ESET business products were released in North America December 11th, 2014, and globally February 25th, 2015. This article applies to version 5.x and earlier ESET business products. For information about what's new in the latest version and how to upgrade, see the following article:

If you do not use ESET Remote Administrator to manage your network

[Perform these steps on individual client workstations.](#) 

1. From the home screen of your Android device, tap the ESET icon  to open ESET Endpoint Security for Android.
2. Tap **Remote Administration** → **Settings**.

3. Select the check box next to **Connect to ESET Remote Administrator server** (see Figure 1-2).
4. Make sure that **Primary server** is selected and type the IP address of your primary ESET Remote Administrator Server (ERAS) into the **Server address** field (see Figure 1-2).

5. If you are using default settings, make sure that **2222** is entered in the **Port** field.
