Activate ESET Cloud Office Security

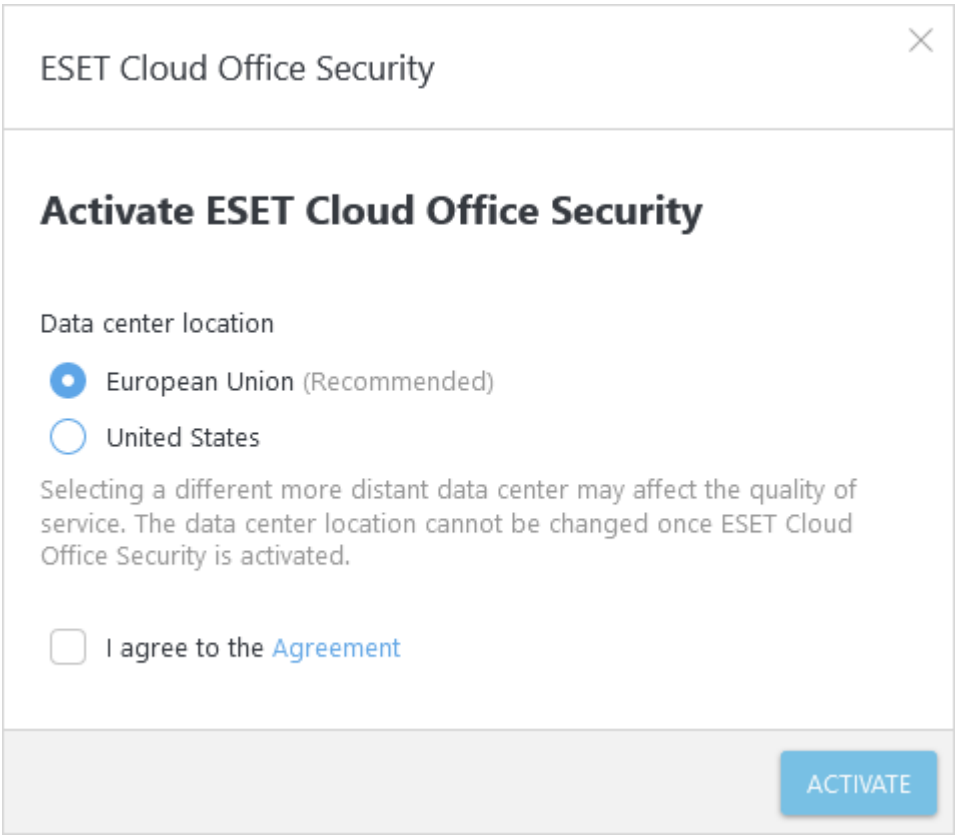

Anish | ESET Nederland - 2020-10-30 - Comments (0) - ESET Cloud Office Security

1 .Log into ESET Business Account and locate ESET Cloud Office Security tile in the Dashboard (you might need to scroll down).

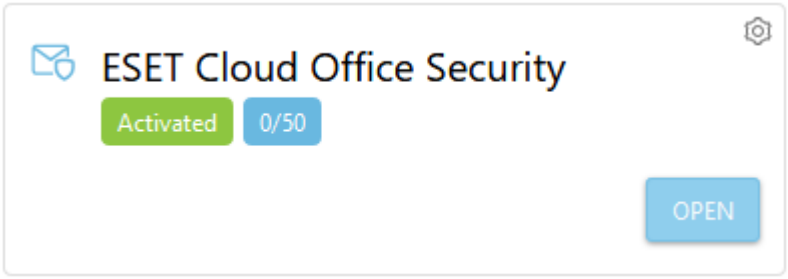

2. Click Activate in the bottom-right corner of the ESET Cloud Office Security tile.

3. The activation wizard will refer to the ESET Cloud Office Security Terms of Use and display the optimal data center location based on your current location. Select I agree to the Terms of Use and click Activate. We do not recommend changing the data center location; however, if you need to use another location, you can make your selection using the drop-down menu.

4. Click Open in the ESET Cloud Office Security tile. The ESET Cloud Office Security Dashboard will open in a new browser tab.

When you log into ESET Cloud Office Security for the first time, a Startup wizard will appear.
