ESET Tech Center

Create IDS exclusions on client workstations in your ESET endpoint product (7.x)

Anish | ESET Nederland - 2019-02-04 - Comments (0) - ESET Endpoint Security

Solution

ESET Security Management (ESMC) users: Perform these steps in ESMC

Create IDS exclusions on individual client workstations

1. Open the main program window of your ESET Windows product.
2. Press the **F5** key to access Advanced setup. Click **Network Protection → Network attack protection** and then click **Edit** next to **IDS exceptions**.

Figure 1-1

1. Click **Add**.

Fig 1-2

1. Select the **Alert**, type the **Remote IP address** (IP address of the machine with the software that scans the network).
2. In the **Action** section, select **No** from the drop-down menu. Click **OK** three times to save.
