Issue

Delete non-connecting computers from ESET Remote Administrator (ERA) if uninstall task fails

Details

Solution

1. Open ESET Remote Administrator Web Console (ERA Web Console) in your web browser and log in. How do I open ERA Web Console?

2. From the ESET Remote Administrator console, click **Admin** → **Server Tasks** → **Delete Not Connecting Computers**.

3. Click **New**.

6. Type a time interval in the **Number of days the computer has not been connected** field.

7. Verify that the check box next to **Deactivate license** is selected and deselect the check box next to **Remove unmanaged computers** unless you want them removed also. Unmanaged computers usually appear in the Lost & Found group.

8. Click **Finish** to run the task, remove the non-connecting computers and deactivate any licenses attached to those computers.
