Error 0x00220403 reported from licence wizard

Anish | ESET Nederland - 2018-02-12 - Comments (0) - ESET Endpoint Encryption

Problem

When using the licence wizard you receive the error message "*Unknown Error 0x00220403 was reported by DESlock+ Registration Wizard. Error occurred : 0x00220403*".

Cause

This error code indicates you are attempting to use a DESlock+/ESET internal test licence on a system which is connecting from an external network.

Solution

You should contact the source of your licence and request a live licence.
