## ESET Endpoint Security firewall blocks Miracast protocol

Steeff | ESET Nederland - 2019-11-08 - Comments (0) - ESET Endpoint Security

**Issue:** Miracast protocol is blocked by ESET Endpoint Security firewall

**Solution:** Create the following allow rule in the Endpoint Firewall

### General

Name: Allow Miracast on Surface HUB

Enables: yes

Direction: Both

Action: Allow

Protocol: TCP and UDP

### Local

Application: C:\Windows\System32\WUDFHost.exe

The screenshot shows the 'Add rule' dialog box with the following configuration:

- General** tab selected.
- Name:** Allow Miracast on Surface HUB
- Enabled:**
- Direction:** Both
- Action:** Allow
- Protocol:** TCP & UDP
- Port:** 0
- ICMP Type/Code:** (empty)
- Profile:** Any profile
- Logging severity:** None
- Notify user:**
- OK** button at the bottom right.

**Add rule** ? □ ×
