## Export logs to Syslog server from ESET Remote Administrator (6.3 and later)

Ondersteuning | ESET Nederland - 2024-08-28 - Comments (0) - 6.x

<https://support.eset.com/kb5777>

### Issue

ESET Remote Administrator version 6.3 and later is able to send notifications to your Syslog server  
Export Threat events, Firewall Aggregated events and HIPS Aggregated events

### Solution

To perform the steps in this article, a user must have the following permissions for their home group:

<b>Functionality</b>	<b>Read</b>	<b>Use</b>	<b>Write</b>
Server Settings	✓	✓	✓

Once these permissions are in place, follow the steps below:

1. Open ESET Remote Administrator Web Console (ERA Web Console) in your web browser and log in. [How do I open ERA Web Console?](#)
2. Click **Admin**  → **Server Settings** and expand **Advanced Settings**.

**Figure 1-1**

**Click the image to view larger in new window**

3. In the **Syslog Server** section, complete the following steps (see figure 1-2):

- a. Click the slider bar next to **Use Syslog server**
  
- a. **Host:** Type the IP address or hostname for the destination of Syslog messages
  
- b. **Port:** Default value is 514
  
4. In the **Logging** section, click the slider bar next to **Export logs to Syslog** and click **Save**.
