ESET Tech Center

Export SysInspector log files from client computers in ESET Security Management Center (7.x)

Anish | ESET Nederland - 2018-09-14 - Comments (0) - ESET Security Management Center

Issue

- Use a client task to retrieve SysInspector log files from your client computers
- Use ESET Security Management Center to view ESET SysInspector logs in the ESMC Web Console

Solution

1. Open ESET Security Management Center Web Console (ESMC Web Console) in your web browser and log in.

2. Click **Client Tasks → ESET Security Product → SysInspector Log Request** and then click **New**.

Click the image to view larger in new window

1. Click the **Settings** section to configure settings for the task. Please note that **you will add Targets after the task is created**.

2. Click **Finish** when you are finished making changes to your task.

3. Click **Create Trigger** when you are asked whether you want to add a trigger for the client task. Click for instructions to Create a Trigger and add Target computers or groups to execute a Client Task.
