ESET Tech Center

How do I configure scheduled tasks for clients in different time zones in ESET Remote Administrator (5.x)

https://support.eset.com/kb2297

A new version has been released

Version 6 of ESET Remote Administrator (ERA) and ESET business products were released in North America December 11th, 2014, and globally February 25th, 2015. This article applies to version 5.x and earlier ESET business products. For information about what's new in the latest version and how to upgrade, see the following article:

What's new in ESET version 6 business products?

When configuring a scheduled task for a client workstation in a different time zone, the scheduled time will correspond to the time zone of the administrator's system, not the time zone of the client workstation. To schedule the task at a specific time for the client workstation, adjust the time according to the administrator's time zone.

Click here for steps to configure scheduled tasks.
