How do I create a scheduled scan on client workstations using ESET Remote Administrator? (6.x)

Ondersteuning | ESET Nederland - 2025-03-07 - Comments (0) - 6.x

<https://support.eset.com/kb3625>

Issue

Create a scheduled scan for multiple client workstations in a network environment

Create a scheduled scan in ESET Endpoint Security or ESET Endpoint Antivirus

Solution

ESET Remote Administrator 5 users: [Click here to view instructions for 5.x products](#)

If you do not use ESET Remote Administrator to manage your network

[Perform these steps on individual client workstations.](#)

Permissions changes in ESET Remote administrator 6.5 and later

Before proceeding, please note important changes to user access rights and permissions in the latest versions of ESET

Remote Administrator.

[View
Permissions
Changes](#)

A user must have the following permissions for the group that contains the modified object:

<i>Functionality</i>	<i>Read</i>	<i>Use</i>	<i>Write</i>
Policies	✓	✓	✓

A user must have the following permissions for each affected object:

<i>Functionality</i>	<i>Read</i>	<i>Use</i>	<i>Write</i>
Groups & Computers	✓	✓	✓

Once these permissions are in place, follow the steps below.

1. Open ESET Remote Administrator Web Console (ERA Web Console) in your web browser and log in. [How do I open ERA Web Console?](#)
2. Click **Admin**  → **Policies**.
3. Select your default policy for clients, click **Policies** and select **Edit**. Make sure you have selected **ESET Endpoint for Windows** policy.
