Solution

> ### If you do not use ESET Remote Administrator to manage your network
>
> Perform these steps on individual client workstations.

1. Open the ESET Remote Administrator Console (ERAC) by clicking **Start → All Programs → ESET → ESET Remote Administrator Console → ESET Remote Administrator Console**.

2. Click **Tools → Policy Manager**.

3. Select the policy that you want to modify (select your default policy to disable notifications on all client workstations) and click **Edit**.

4. Expand **Windows desktop v5 → Kernel → Settings→ Advanced → Notify about missing OS updates from level**.

5. Select **No updates** from the **Value** drop-down menu.

Click the image to view larger in new window.

6. Click **Console → Yes** to save your changes. These settings will be applied the next time that computers assigned to this policy check into ESET Remote Administrator.

Disable notifications about Microsoft Windows updates on individual client workstations

1. Open ESET Endpoint Security or ESET Endpoint Antivirus. [How do I open my ESET product?](#)

1. Press the **F5** key to open the Advanced setup window.

1. Expand **Tools**, click **System updates**, and then select **No updates** from the **Notify about missing updates from level** drop-down menu.

1. Click **OK** to save your changes.
