How to take a screenshot of Disk Management

Anish | ESET Nederland - 2019-07-17 - Comments (0) - Diagnostics

Please follow these steps to take a screen shot of Disk Management.

• Click on the Windows button in the bottom left hand corner of your screen and type **diskmgmt.msc** in the search box as shown below

• When **diskmgmt.msc** is shown at the top of the list click it and it will display the window shown below.

📅 Disk Managem	ient									_	×

Disk 0 Basic 39.98 GB Online CD-ROM 0 DVD (D:) No Media Unallocated	Recovery 499 MB NTFS Healthy (OEM Pr Primary partition	artition)		99 MB Healthy (EFI	System Partition)	(C:) 39,40 ( Health	SB NTFS y (Boot, Page File	, Crash Dump, Pr	imary Partition)		

Ensure all of the information in the Disk Management window is shown correctly, then press the **Print Screen** button on your keyboard.

Open Microsoft Paint and paste the screenshot by pressing **CTRL+V** on your keyboard. Save the image as a .png file and attach it to your support ticket.
