## Issue

---

ESET Endpoint Security or ESET Endpoint Antivirus prevents you or a client workstation from sending emails using Microsoft Outlook

## Solution

---

[Perform these steps using ESET Remote Administrator](#)

[Perform these steps on a client workstation](#)

### **Using ESET Remote Administrator:**

1. Open the ESET Remote Administrator Console (ERAC) by clicking **Start** → **All Programs** → **ESET** → **ESET Remote Administrator Console** → **ESET Remote Administrator Console**.
2. Click **Tools** → **Policy Manager**.
3. Select the policy that you want to modify and click **Edit**.
4. Expand **Windows desktop v5** → **Email client** → **Settings** and select **Integrate into Microsoft Outlook**.

5. Deselect the check box next to **Value** and click **Console** → **Yes** to save your changes.

**Figure 1-1**

**Click the image to view larger in new window**

6. Click **OK** to exit Policy Manager.

---

**On the client workstation:**

1. Open ESET Endpoint Security or ESET Endpoint Antivirus. [How do I open my ESET product?](#)
2. Press the **F5** key to display the Advanced setup window.
3. Expand **Web and email** → **Email client protection**, click **Email client integration** and then deselect the check box next to **Integrate into Microsoft Outlook**. Click **OK**.

**NOTE:**

Even if integration is not enabled, email communication is still protected by the email client protection module (POP3, IMAP).

**Click the image to view larger in new window**

4. Try sending an email. If you are unable, [uninstall and reinstall your ESET product](#).

**NOTE:**

If after uninstalling and reinstalling you still cannot send email, contact your Internet service provider for assistance.
