## Migrate exclusions from ESET Inspect on-premises to ESET Inspect Cloud

Lesley | ESET Nederland - 2022-10-24 - Comments (0) - ESET PROTECT On-prem

### Issue

- You want to migrate customized settings from ESET Inspect on-premises to ESET Inspect Cloud
- Export Exclusions
- Export Event Filters
- Export Any Custom Rules
- Blocked Hashes

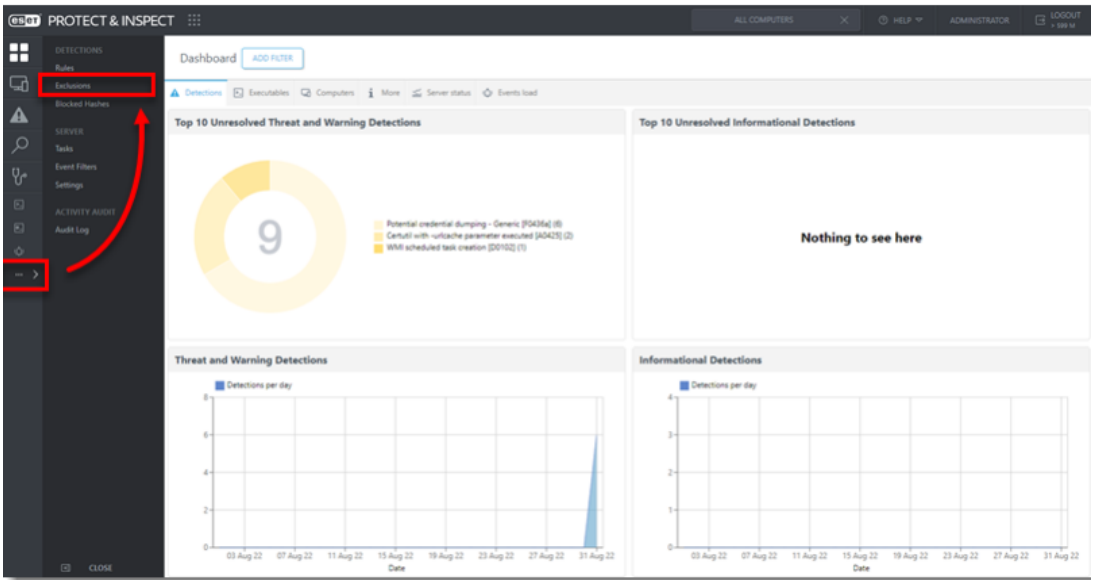
### Solution

ESET Security Services for ESET Inspect and ESET Inspect Cloud

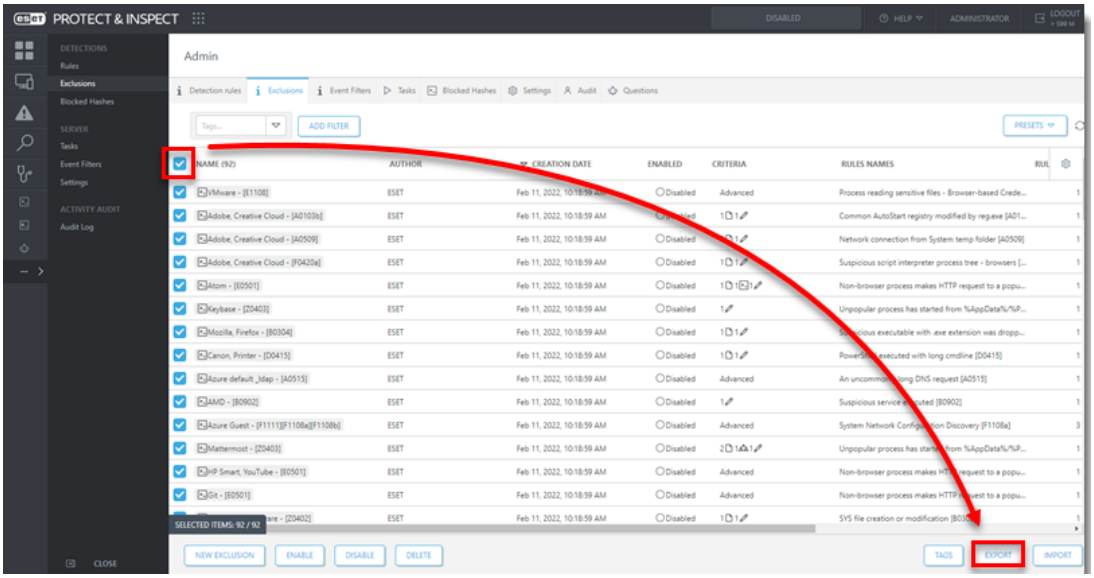
ESET offers various security service packages and additional support for these products. Support for ESET Inspect on-premises and ESET Inspect Cloud is limited and managing rules or exclusions are not included without an ESET Security Service package. Contact a sales representative for further assistance.

### Export Exclusions

1. Click **More** → **Exclusions**.



2. Remove all filters, select the check box next to **Name** and click **Export**.



Add recommended exclusions to ESET Inspect Cloud

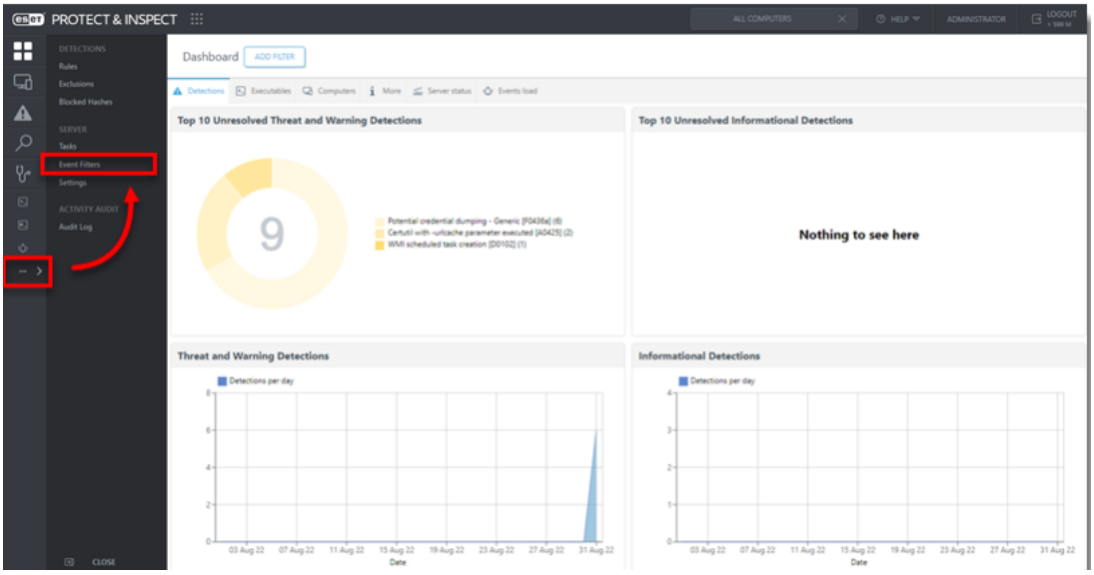
See our Knowledgebase article to view the additional exclusions we recommend adding in ESET Inspect Cloud.

## Export event filter as backup

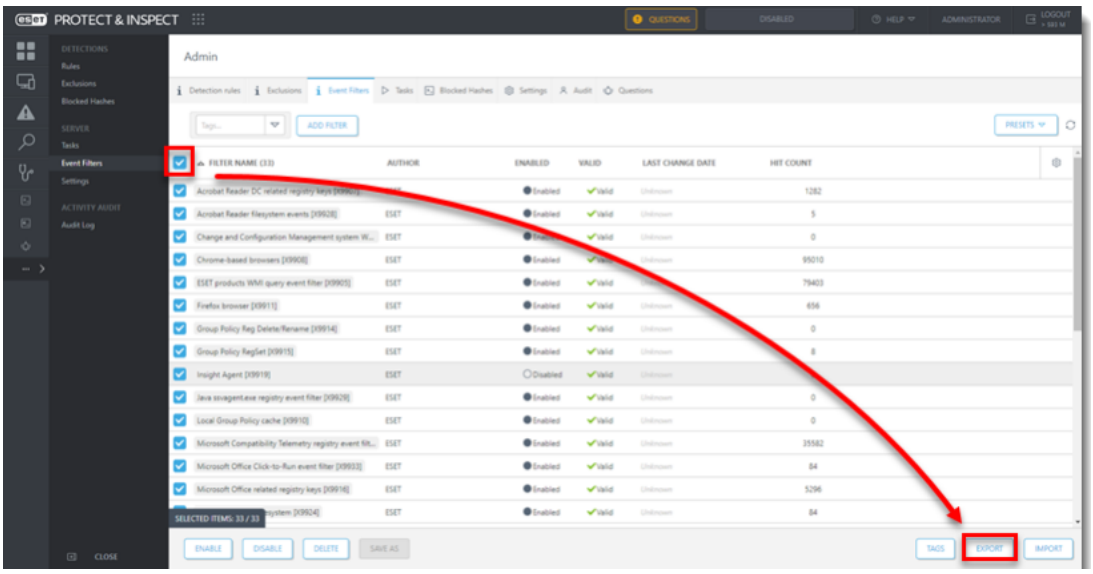
Export as a backup only

Event filters can only be exported as a backup and will not import into ESET inspect Cloud

1. Click **More** → **Event Filters**.



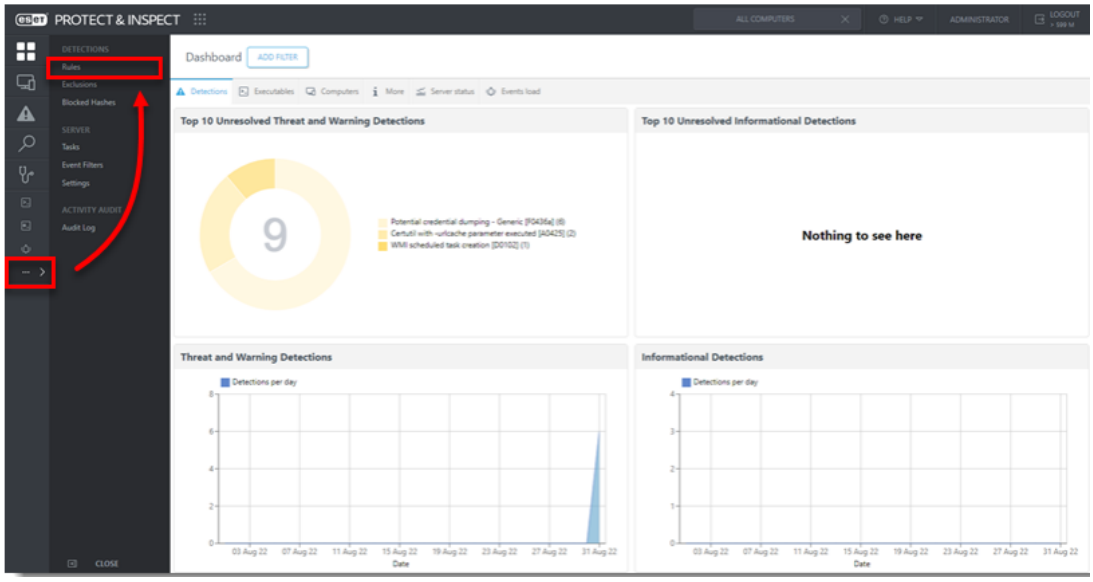
2. Remove all filters, select the check box next to **Name** and click **Export**.



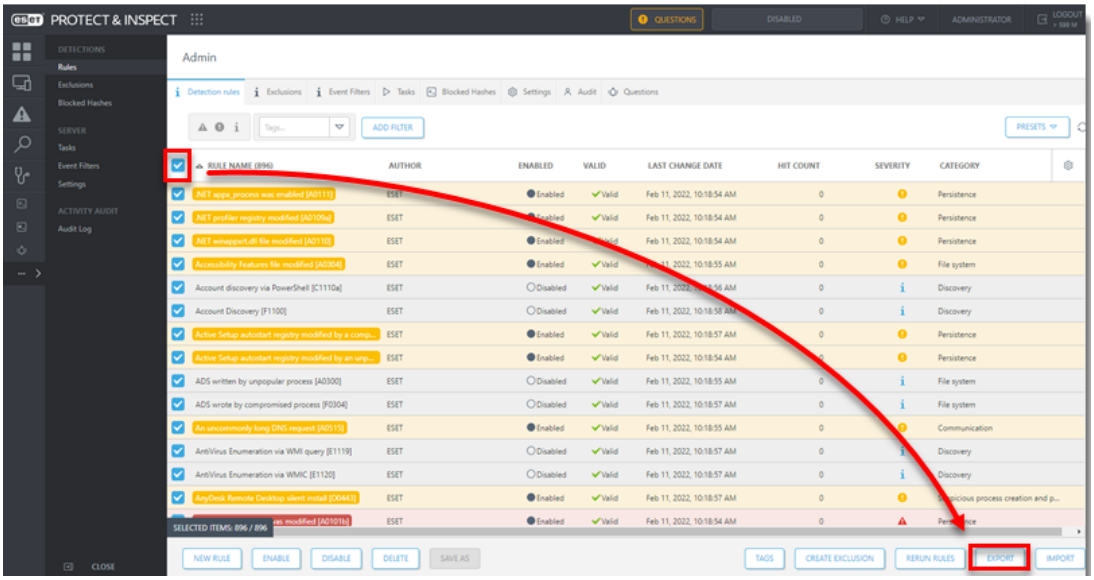
### Export Any Custom Rules

> Only export custom rules
> We recommend only exporting custom rules that were created by the user.

1. Click **More → Rules**.

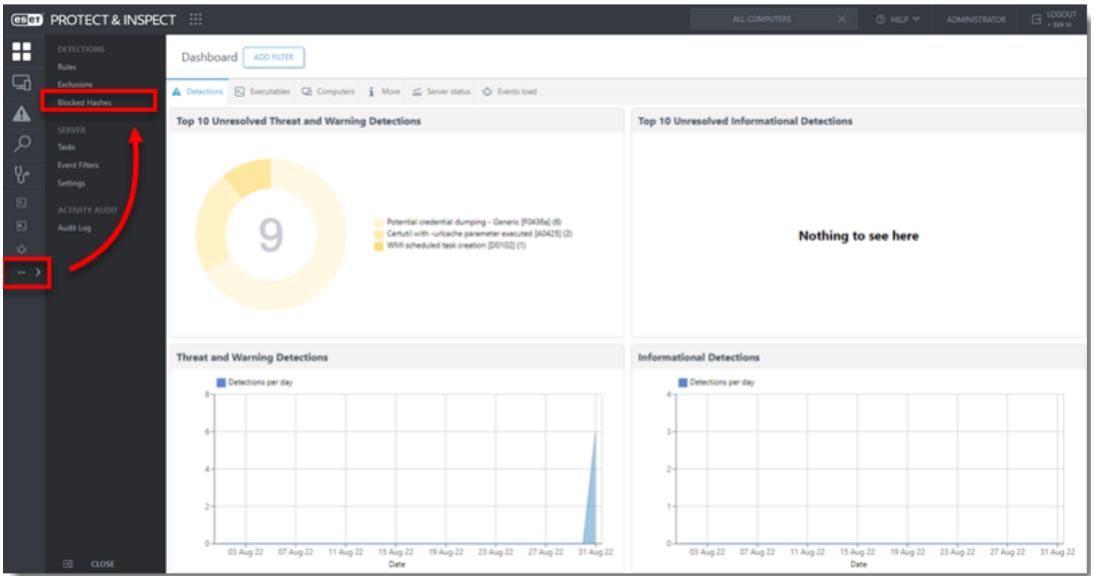


2. Filter for **Author isNot ESET**, select the check box next to **Name** and click **Export**.



### Blocked Hashes

1. Click **More → Blocked Hashes**.



2. Any blocked hashes must be manually copied over to ESET Inspect Cloud.
