Notification: At least one computer has not connected for more than 14 days

Steef | ESET Nederland - 2021-01-27 - Comments (0) - ESET Security Management Center

ISSUE

When using the default notification in ESMC/ESET PROTECT: *At least one computer has not connected for more than 14 days*, you are not able to enrich the subject and or body with variables . (e.g. Computer name, Static group name and the last connected timestamp)

SOLUTION

You can create the following workaround using the scheduled report functionality:

1. Create a new report in ESMC/ESET PROTECT.

2. Give the new report a logical name.

Edit Report Template
