Open the ESET PROTECT or ESET PROTECT Cloud Web Console

Steef | ESET Nederland - 2020-12-10 - [Comments (0)](#) - [ESET PROTECT On-prem](#)

Details

The ESET PROTECT Web Console and ESET PROTECT Cloud Console are the online interfaces that allows you to manage your network from virtually anywhere. See [ESET PROTECT Web Console](#) or [ESET PROTECT Cloud Web Console](#) for more details.

ESET PROTECT

The ESET PROTECT Web Console can be accessed with most web browsers ([view compatible web browsers](#)):

- **On your local ESET PROTECT Server**: Open your compatible web browser and enter **https://localhost/era** into the address bar to access the ESET PROTECT Web Console.

- **From an outside computer**: If your ESET PROTECT Server is accessible to outside connections, you can access the ESET PROTECT Web Console from any computer. Open your web browser and enter **https://%yourservername%/era** (replace %yourservername% with the actual IP address or name of your web server, for example **https://10.1.30.30/era**) into the address bar to access the ESET PROTECT Web Console.
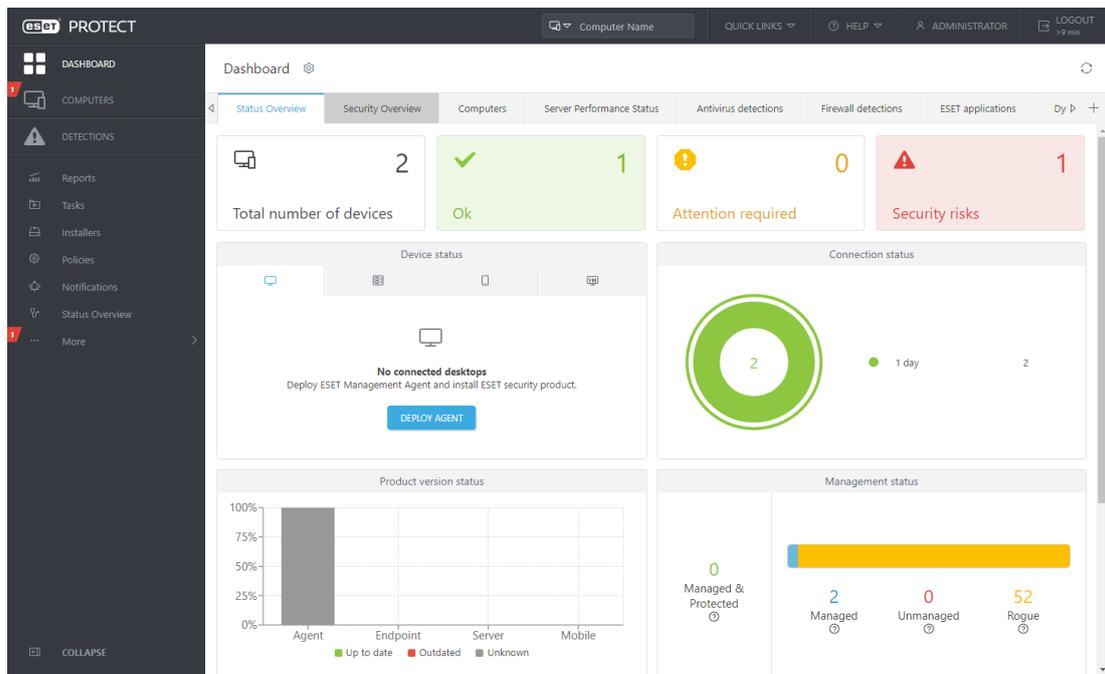

> ✅ Which port does ESET PROTECT Web Console use?
> By default, ESET PROTECT Web Console uses port 443. In some cases when port 443 is not available, port 8443 is used. How do I change the port used by ESET PROTECT Web Console?

If you experience problems logging in or receive error messages while trying to log in, see [ESET PROTECT Web Console Troubleshooting](#).
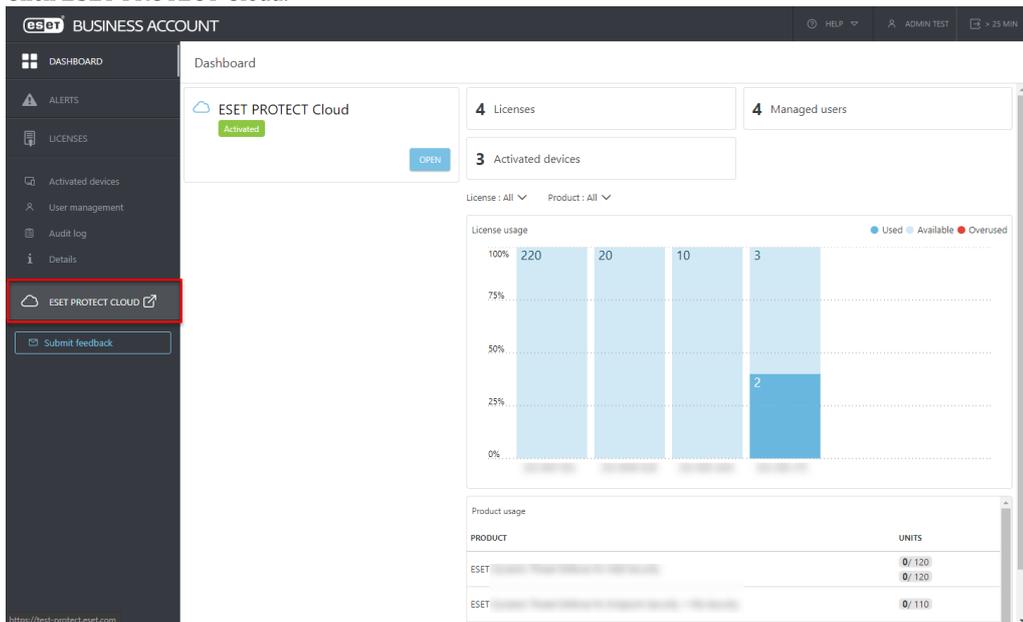

For more information about how to administer client computers in the ESET PROTECT Web Console, see the [ESET PROTECT User Guide](#).
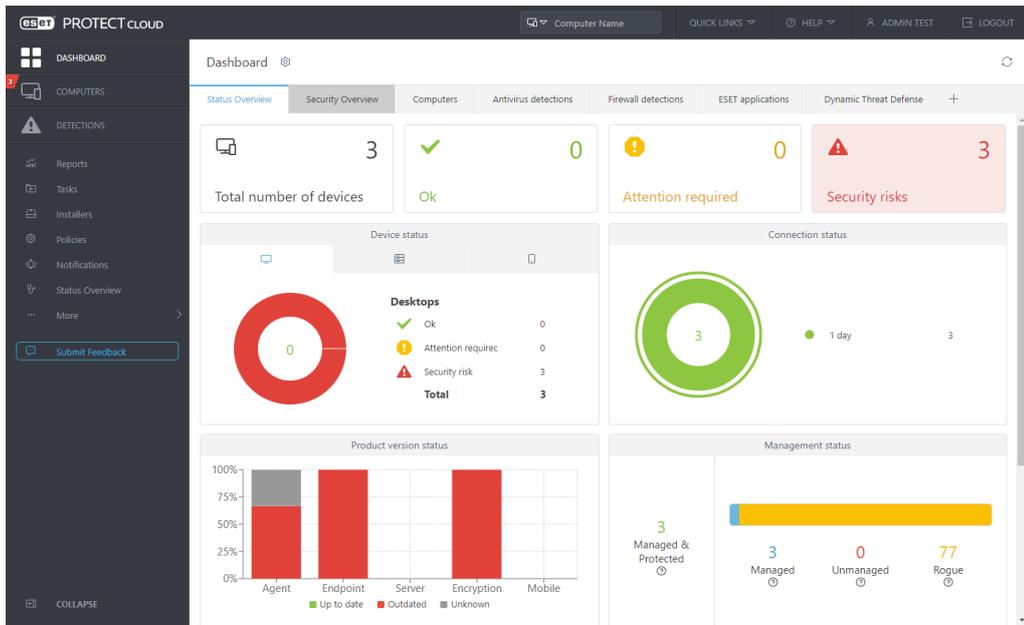

ESET PROTECT Cloud

The ESET PROTECT Cloud Console can be accessed with most web browsers ([view compatible web browsers](#)).

1. Log in to your [ESET Business Account](#).
2. Click ESET PROTECT Cloud.

If you experience problems logging in or receive error messages while trying to log in, see [ESET PROTECT Cloud Web Console Troubleshooting](#).For more information about how to administer client computers in the ESET PROTECT Cloud Web Console, see the [ESET PROTECT Cloud User Guide](#).
