## Password protect program settings on client workstations from ESET Remote Administrator (6.x)

Ondersteuning | ESET Nederland - 2025-03-07 - [Comments \(0\)](#) - [6.x](#)

<https://support.eset.com/kb3703>

### Issue

---

ESET program settings are not password-protected on client workstations

### Solution

---

#### Version 6.1.2227 and later only

The steps below will only work on ESET Remote Administrator and ESET Endpoint Antivirus / ESET Endpoint Security version 6.1.2227 and later (and ESET File Security for Microsoft Windows Server 6.2.x and later).

If you do not use ESET Remote Administrator to manage your network

[Perform these steps on individual client workstations.](#)

Password protect settings on client workstations using ESET Remote Administrator

Permissions changes in ESET Remote

## administrator 6.5 and later

Before proceeding, please note important changes to user access rights and permissions in the latest versions of ESET Remote Administrator.

[View Permissions Changes](#)

### [View permissions](#)

Once these permissions are in place, follow the steps below.

1. [Open ESET Remote Administrator Web Console](#) (ERA Web Console) in your web browser and log in.
2. Click **Admin**  → **Policies** and then select the policy that you want to modify.
3. Click **Policies** → **Edit**.

**Figure 1-1**

**Click the image to view larger in new window**

4. Expand **Settings** and select **ESET Endpoint for Windows** from the drop-down menu.

**Figure 1-2**

**Click the image to view larger in new window**

5. Click **User Interface**, expand **Access Setup**, and then click the slider bar next to **Password protect settings**.

**Figure 1-3**

**Click the image to view larger in new window**

6. Type the password in the **New password** and **Confirm password** fields. Click **OK** to save your changes.

**Figure 1-4**

7. Click **Finish** to save your changes. Client computers assigned to this policy will receive the changes the next time they check in to the ESET Remote Administrator Server. [Assign a policy](#).

---

## Password protect settings on individual client workstations

1. Open ESET Endpoint Security or ESET Endpoint Antivirus. [Open my ESET product](#).
2. Press the **F5** key to open the Advanced setup window (if you are using a tablet, tap **Setup** → **Advanced setup**).
3. Click **User Interface**.
4. Expand **Access Setup** and click the slider bar next to **Password protect settings**.

### **Figure 2-1**

5. Type the password into the **New password** and **Confirm password** fields and click **OK**.

### **Figure 2-2**

6. Click **OK** to save your changes and exit the Advanced setup window.
