# Ransomware Remediation with ESET XDR

Steef | ESET Nederland - 2023-12-20 - Comments (0) - Video Content

In this exclusive video, our MDR (Managed Detection and Response) engineer takes you inside our ESET Inspect XDR module to showcase the power of ESET PROTECT Platform. Watch in real-time as we demonstrate the effectiveness of our solutions in deflecting a ransomware attack orchestrated by the notorious FreeWorld ransomware. The scenario was replicated by one of our Security Monitoring Analysts James Rodewald from our Managed Detection and Response (MDR).

Key Highlights:

- Real-world Scenario: Witness how our ESET PROTECT Platform effectively combats a simulated Freeworld ransomware attack, providing a firsthand look at our cutting-edge technology in action.

- Actionable Insights: Explore the Incident Creator feature, where every detail is presented in a clear and actionable context. Our MDR engineer demonstrates how our tools empower quick decision-making and response.

Ready to enhance your organization's cybersecurity posture? Contact your ESET representative today for a business trial or more information about our MDR offerings. Strengthen your defenses and stay one step ahead of cyber threats with ESET!
