Required user permission sets for tasks in ESET Security Management Center (7.x), ESET PROTECT (8.x) and ESET PROTECT Cloud

Anish | ESET Nederland - 2021-07-01 - Comments (0) - Legacy

Solution

Required user permissions

This article assumes that you have the appropriate [access rights and permissions](#) to perform the tasks below.

If you use the default Administrator user or are unable to perform the tasks below (the option is unavailable), create a second administrator user with all access rights.

- **ESET PROTECT users:** [Create a second administrator user in ESET PROTECT](#)
- **ESET Security Management Center (ESMC) users:** [Create a second administrator user in ESET Security Management Center 7.x](#)

To perform tasks in the ESET Security Management Center (ESMC) Web Console, ESET PROTECT Web Console or ESET PROTECT Cloud Web Console, a user must have the appropriate access rights assigned to their home group. Each user has an [assigned permission set](#) that defines the scope of their access level to various objects.

Below is a list of example tasks and the required permission set to successfully perform the task.

Generate a report

[Generate a report in ESET PROTECT](#)

Deploy ESET Management Agent using Agent Live Installer

[Use Agent Live Installer to deploy the ESET Management Agent 8.x](#)

Deploy ESET Management Agent using All-in-one installer

[Deploy the ESET Management Agent and the ESET endpoint product together \(8.x\)](#)

Deploy the ESET Endpoint Product

[Deploy or upgrade ESET endpoint products using ESET PROTECT](#)

Run a Client Task

[Create a trigger and add target computers or groups to execute a Client Task in ESET PROTECT](#)

Create or edit a policy

[Create a new policy in ESET PROTECT](#)

Assign or unassign a policy

Refer to the [Assign a Policy to a Client topic](#) of the ESET PROTECT Online Help guide.

Request configuration of the ESET product on the managed computer

Refer to the [Configuration section of the Computer details topic](#) in the ESET PROTECT Online Help guide.

Create and generate notifications

Refer to the [Notifications topic](#) in the ESET PROTECT Online Help guide.

Edit ESET PROTECT Server settings

Refer to the [Server Settings topic](#) in the ESET PROTECT Online Help guide.

Add or edit users

Refer to the [Add New Users topic](#) or [Edit Users topic](#) in the ESET PROTECT Online Help guide.

Send a file to ESET Dynamic Threat Defense

Refer to the [Detections topic](#) in the ESET PROTECT Online Help guide.
