## Upgrade ERA Agents (6.5) or ESET Management Agents (7.x) to the latest ESET Management Agents (7.2) using the Components Upgrade Task

Anish | ESET Nederland - 2025-03-07 - Comments (0) - 6.x

## Issue

 You have upgraded your ERA 6.5 or ESMC 7.x product to the latest version of ESET Security Management Center 7.2, but the computers managed by ESMC are still running an older Agent version, as shown in the Web Console → Dashboard → ESET Applications → Outdated Applications

## Solution

- 1. Open the ESMC Web Console.
- 2. Click Tasks → New → Client Task.

×

1. Click **Finish** to apply the Client Task to all managed computers. The task may take longer to complete, depending on the Agent replication interval. After the task completes on all computers, ESET Management Agent on all managed computers is updated to the latest version (7.2).
