Use Active Directory Scanner in ESET PROTECT Cloud

Steef | ESET Nederland - 2020-12-10 - Comments (0) - ESET PROTECT (Cloud)

Issue

- Important information about using the Active Directory Scanner (ADS) tool

Details

The ESET ADS tool is only available for ESET PROTECT Cloud version 2.0 and cannot synchronize Active Directory users at this time.

Solution

Visit the ESET PROTECT online help guide for information about:

- Prerequisites
- Using the ESET ADS tool to synchronize Active Directory computers with ESET PROTECT Cloud Web Console
- Exporting the list of computers from Active Directory and import it to ESET PROTECT
- Deploying the ESET Management Agent to Active Directory computers using a Group Policy Object (GPO)

Available support resources

- Click here for more information on synchronizing ESET PROTECT Cloud with ADS

Changelog

- CHANGED: ESET Cloud Administrator renamed to ESET PROTECT Cloud
- ADDED: Ability to manage and protect mobile devices running Android OS
