Announcement: ESET INSPECT - Enabling non-optional rules; Warning level only

2024-03-07 - Steef | ESET Nederland - [Comments \(0\)](#) - [Customer Advisories](#)

One of our goals is to make a full transition towards Incident Centricity where the main workflow is with Incidents. For this reason, we need to increase the number of inputs for our algorithms, and **it will be done by enabling of the non-optional rules: Warning severity level only and only in Cloud instances.**

After internal testing and observation, we state that enabling of the non-optional rules **should not lead to significant noise increase in Detection view and also to not have significant impact to Syslog.**

In case you do not want to display it, you can quickly filter out the levels by using these quick filters:

The screenshot shows the ESET INSPECT interface. At the top, there is a navigation bar with the ESET logo, 'PROTECT & INSPECT', and user information. Below this, there is a 'Detections' section with a dropdown menu set to 'UNGROUPED'. A red box highlights the filter icons: a warning triangle, a yellow circle with an exclamation mark, and an information 'i' icon. Below the filters is a table of detections with columns for 'DETECTIONS (3480)', 'SEVERITY', 'PRIORITY', 'OCCURRENC...', 'RESOLVED', 'TIME OCCURRED', and 'COM'. The table lists several rules, including 'Management of the services from command line [B0403]', 'File and directory discovery via PowerShell [C1109c]', and 'Disk / Filesystem Discovery [L1112C]'. Each rule has a severity level (Warning) and a priority (Info).

DETECTIONS (3480)	SEVERITY	PRIORITY	OCCURRENC...	RESOLVED	TIME OCCURRED	COM
▲Rule Management of the services from command line [B0403]	i		1	0/1	Feb 5, 2024, 1:14:06 PM	
▲Rule File and directory discovery via PowerShell [C1109c]	i		1	0/1	Feb 5, 2024, 1:07:29 PM	
▲Rule Disk / Filesystem Discovery [L1112C]	i		1	0/1	Feb 5, 2024, 12:00:04 PM	
▲Rule Disk / Filesystem Discovery [L1112C]	i		4	0/4	Feb 5, 2024, 11:35:33 AM	
▲Rule File and Directory Discovery [L1114]	i		2	0/2	Feb 5, 2024, 11:34:07 AM	
▲Rule File and Directory Discovery [L1114]	i		12	0/12	Feb 5, 2024, 11:34:05 AM	
▲Rule System Owner / User Discovery [L1111]	i		2	0/2	Feb 5, 2024, 11:34:05 AM	

We will begin enabling it on Monday, the 11th of March, and will continue in batches.
