ESET Cloud Office Security version 530 has been released

2025-02-06 - Steef | ESET Nederland - Comments (0) - Feature release

ESET Cloud Office Security version 530 has been released.

Changelog

- NEW: Add email rules to policies and customize conditions and actions of received emails. Conditions containing authentication methods such as DKIM, DMARC and SPF, define your own sender verification and anti-spoofing rules.

- NEW: Export a CSV file of users with their protection statuses from the Users page

- NEW: "From Name" field to email details and the syslog's optional fields allowing users to see the specified name of the sender's email defined in the email header
