ESET Endpoint Antivirus and ESET Endpoint Security for Windows version 13.0.2044.0 have been released

2026-04-14 - Steef | ESET Nederland - [Comments \(0\)](#) - [Feature release](#)

ESET Endpoint Antivirus and ESET Endpoint Security for Windows version 13.0.2044.0 have been released.

Version 13.0.2044.0 is now released and available via on-demand Auto-update only as a staged rollout.

Stage one: available online on Auto-update/micro Program Component Update (uPCU) channel.

- Throttling 0% serving ratio starts on the 14th of April 2026.
- Throttling 50% serving ratio starts on the 28th of April 2026.
- Throttling 100% serving ratio starts on the 12th of May 2026.

Stage two: available on the global website and in the software repository of ESET PROTECT.

- Planned on 5-5-2026, postponed for 21-5-2026 2.6.2026 this is due to ~2,5 % of population is waiting for the fixed build of v12.1 (.1) to be applied after restart through the standard auto-update process. See the customer advisory below for further info.

Installation packages will be available after mitigation of a critical offline-upgrade issue. For more information about the issue, see [ESET Customer Advisory: Mandatory Auto-updates of ESET security applications for the Windows platform](#).
