ESET Full Disk Encryption v2.3.7.0 servicing update

2026-04-21 - Steef | ESET Nederland - Comments (0) - Servicing release

A servicing update of ESET Full Disk Encryption v2.3.7.0 has been released.

Changelog

- FIXED: An intermittent issue where resuming from hibernate could fail and cause the bootloader to be displayed twice.
- FIXED: An intermittent issue where systems using Fast Startup could display the bootloader twice.
- FIXED: A blue screen that could occur when using SSO while the computer was locked.
- FIXED: A rare issue that could cause a blue screen after migrating from EEE to EFDE.
- FIXED: An issue where the FDE password policy was initially cleared during migration from EEE to EFDE, potentially forcing users to change their password unnecessarily.
