ESET Mail Security for Microsoft Exchange Server version 11.0.10008.0 has been released

2024-06-19 - Steef | ESET Nederland - Comments (0) - Servicing release

ESET Mail Security for Microsoft Exchange Server version 11.0.10006.0 has been released and is available for download.

Changelog

- IMPROVED: Added fallback to default On-demand scan account for error handling and compatibility with public folders
- IMPROVED: An error record indicating that the user provided invalid credentials for the elevated permissions account in the Events log
- FIXED: A known issue with Vulnerability & Patch Management, where the vulnerability scan was unable to list Server OS vulnerabilities
- FIXED: An unsupported restart-related setting was displayed in the policy for ESET Mail Security's Vulnerability & Patch Management
- FIXED: The policy-locked settings were displayed as inactive in the main program window
- FIXED: The network protection log header was not displayed
- FIXED: Windows Updates were not displayed in the GUI or ESET PROTECT on systems earlier than Windows 10 RS4
- FIXED: Security vulnerability CVE-2024-3779

Please note that this release affects the support statuses of these formerly released versions:

Version	Current Status	Full Support	Limited Support
10.0	Full Support	Until April 30, 2025	Until April 30, 2027
