ESET PROTECT Cloud version 4.7 has been released

2023-10-11 - Steef | ESET Nederland - Comments (0) - Releases

Release date: October 10, 2023

ESET PROTECT Cloud version 4.7 has been released.

Changelog:

- **ADDED:** New REST APIs for ESET PROTECT Cloud, integrating the new APIs will allow you to seamlessly integrate data from ESET PROTECT Cloud into your existing toolkit.
- **IMPROVED:** New information for MSP administrators about the MSP managing company in the All-in-one installer
- **FIXED:** Agents lost connection after migration, followed by an upgrade
- **FIXED:** Agent service fails to stop in time, or system restart takes longer than expected in specific cases
- **FIXED:** Agent for macOS is not correctly reporting the system build number in specific cases
- Other minor improvements and bug fixes

Support resources

ESET provides support through a fully localized app and Online Help (user guides), online Knowledgebase, and applicable to your region, chat, email, or phone support.
