ESET PROTECT hotfix version 9.0.10.2 has been released (Hotfix)

2021-12-07 - Steef | ESET Nederland - Comments (2) - Servicing release

We want to confirm the successful release of the hotfix for **ESET PROTECT 9.0.10.2**
We have only replaced Apache HTTP Proxy (v 2.4.48.1) with the newer version (v 2.4.51.0) due to discovered vulnerabilities in the older one. So we have released the new all-in-one installer (.zip and .iso) and standalone installer for Apache HTTP Proxy.

Update of this component is necessary to do manually by running standalone installer or all-in-one installer on ESET PROTECT server.

Changelog

- FIXED: Apache HTTP Proxy (v 2.4.48.1) replaced with the newer version (v 2.4.51.0) due to discovered vulnerabilities in the older version

Product: ESET PROTECT
Service version (Build Information): 9.0.10.2
Release Stage: Hotfix Release
Languages: All
Installers: https://www.eset.com/int/business/download/eset-protect/

Hi Steef, is deze update bedoeld voor het mitigeren van de log4J exploit? Zo niet, is deze apache installer daar onderhevig aan?

Beter laat dan nooit, ik zag dat je comment op deze release post (hotfix) nog niet/nooit approved was en dus nog een antwoord verdient :D Deze hotfix was niet related met log4j, maar er zat een kwetsbaarheid in openssl welke meegeleverd wordt in apache http server.
