ESET PROTECT version 5.2 has been released

2024-04-05 - Steef | ESET Nederland - Comments (0) - Releases

ESET PROTECT version 5.2 has been released. The staged roll-out will begin on April 4, 2024. To check if your instance has been updated to the new version, see About ESET PROTECT.

Changelog

- ADDED: MDR dashboard that displays real-time data for customers with the ESET MDR service
- ADDED: Weekly MDR report email sent automatically to customers with the ESET MDR service
- ADDED: Archive of MDR reports for customers with the ESET MDR service
- ADDED: Ability to enroll all mobile devices with one enrollment link or QR code via Microsoft Entra ID enrollment
- IMPROVED: Post-installation restart is not required for Linux products (ESET Endpoint Antivirus for Linux and ESET Server Security for Linux)
- IMPROVED: Using Google Play version of ESET Endpoint Security for Android instead of a web version when enrolling a mobile device in Device Owner mode
- FIXED: Error message displayed when opening the details or editing a server task with a trigger other than **Generate report**
- FIXED: Incorrect headline displayed in the webhook notifications sent to Microsoft Teams
- FIXED: Displaying "Product not installed" alert for **Common features** policies in some instances
- FIXED: No information about the mobile network is displayed when the device has multiple SIMs/eSIMs
- Other minor improvements and bug fixes
