ESET Remote Administrator 6.5.34.0 - MDM Connector HOTFIX

2017-10-30 - Michael van der Vaart - Comments (0) - Servicing release

Deze release lost een aantal vulnerabilities op (Dit is niet direct gerelateerd aan ESET) voor de mee geinstalleerde componenten (Tomcat, http proxy) , fixes voor de MDMcore en de nieuwe mirror Tool welke compatible is met Endpoint 6.6
Deze is te downloaden vanaf de reguliere website. Uiteraard kan deze ook geupgrade worden middels een Remote Administrator Components Upgrade taak van uit de ERA.

New components included:

- MDM Windows: 6.5.453.0
- MDM Linux: 6.5.510.0
- Mirror Tool Windows: 1.0.675.0
- Mirror Tool Linux: 1.0.658.0
- Apache Tomcat: 7.0.82
- Apache HTTP Proxy: 2.4.28.0

Changelog:

- Changed: New Apache Tomcat 7.0.82 with fixed security vulnerabilities
- Changed: New Apache http Proxy 2.4.28.0 with fixed security vulnerabilities
- Changed: New Mirror Tool, that allows creation of mirror for ESET Endpoint Security & Antivirus 6.6
- Changed: Increase of maximum number of concurrent EVS connections to 200.
- Fixed: ESET Mobile Device Connector to ERA Server connectivity issues (when mobile devices were functioning correctly, however connection to ERA server was interrupted, and data in ERA web console was not updated)
- Fixed: Rare database write failures when the database server is overloaded
- Fixed: Increase in MultiAgent startup time
- Fixed: False MultiAgent overload report
