ESET Secure Authentication - Mobile Application 4.1.55 (Servicing update) has been released

2025-11-28 - Steef | ESET Nederland - [Comments \(0\)](#) - [Servicing release](#)

Users are receiving the update in a phased manner: only up to 25% of users received the update on the day of the release and we will increase the percentage up to 100% by Wednesday December 3.

Changelog:

- Fixed: Whitespace copied as well when copying OTPs to clipboard
- Fixed: OTP digits reversed in right-to-left localizations

Support resources:

ESET provides support in the form of a fully localized application and Online Help (user guides), online [Knowledgebase](#), and applicable to your region, chat, email, or phone support.
