Pre-release Announcement: ESET Inspect Cloud v1.9

2022-12-19 - Steef | ESET Nederland - Comments (0) - Releases

On Thursday the 22nd, and Friday the 23rd of December, we will be performing an update of all ESET Inspect Cloud instances to the latest version 1.9 which introduces many great new features and improvements:

- Including Multitenancy,
- Integration with our LiveGuard Advanced cloud sandbox,
- The first iteration of automatic Incident creation,
- New types of Response actions and many others.

Full details will become available on the day of release in the What's New section of the ESET Inspect Cloud Online Help page https://help.eset.com/ei_cloud/en-US/.

Please note that during the update timeframe ESET Inspect Cloud instances will experience downtimes ranging from ~5 to 60 minutes based on the size of their database. We apologize for any inconvenience.
