Pre-release announcement: ESET PROTECT Cloud 4.1

2023-01-10 - Steef | ESET Nederland - Comments (0) - Releases

Release notes:

- The release process, as usual consists of several individual (internal) tasks/activities which will be executed from 12.1.2023 (starting 9:00 CET) - to 26.1.2023.
- Mind the fact, that due to thousands of ESET PROTECT Cloud instances, the upgrade will happen in phases (gradual roll-out to individual instances) from 12.1.2023 - 26.1.2023 to secure smooth operation of the whole cloud service.
- Individual customers will be impacted in a minimal way. From their point of view, updates will require minimal downtime. Individual customer's instance would be inaccessible up to 15 minutes. Upgrades will happen out of business hours.
- New customers will not be affected, as a newly generated instance would be on the latest version from the very first moment.
- The security of the network will not be affected.

Changelog:

- ADDED: Enrollment support for Android mobile devices via Microsoft Intune Management Console
- ADDED: Column "Investigated by ESET" in incident overview in the ESET Inspect dashboard
- ADDED: Ability to add column FQDN and Serial Number in

the Computers section

- IMPROVED: Size values in Submitted Files
- FIXED: Inability to resolve/unresolve detections when the parent group is selected in the tree
- FIXED: Incorrect encryption process (EFDE) status in the ESET Solutions section
- FIXED: Wrong ESET LiveGuard license was shown while editing the existing software install task
- Various other minor improvements and bug fixes
