Release Announcement: Direct Endpoint Management plugin for ConnectWise Automate v1.4

2020-01-24 - Steef | ESET Nederland - Comments (0) - Releases

Let me inform you that as of **Wednesday, 22nd of January, 2020**, **minor** version of Direct Endpoint Management plugin for ConnectWise Automate v1.4 has been released. The plugin is updatable directly from within ConnectWise Automate and available for download at [ConnectWise Marketplace](#).

Changelog:

Added: License Management feature that will allow the administrator to connect DEM plugin with EMA2 and manage licenses (usage status and increase/decrease quantity)

Added: ConnectWise Automate Report Center reports which bring 9 out-of-the-box monitoring templates

Added: New Column in OVERVIEW shows COMPUTER OS

Added: "Automatic Refresh" check box to lists and charts

Added: EVENT LOG now shows events for successful/unsuccessful Policy Application

Added: Double clicking a chart in the dashboard will display a pre-filtered view of the selected section

Added: New option in settings to hide endpoints according to clients/locations from being displayed in the OVERVIEW and COMPUTERS page

Added: New Monitor that can detect "License Expired"

Changed: Ability to select and edit multiple licenses at the same time

Changed: Additional info in threat logs

Changed: Additional info in scan logs

Changed: When ordering a table by pressing a column header, the table now scrolls to top

Fixed: Mac deployment failure

Fixed: in Threat logs, threat object URIs are no longer encoded

Fixed: Non-ASCII characters displayed incorrectly in Protection Status

Fixed: News page

Fixed: Other minor issues
