2024-05-07 - Steef | ESET Nederland - Comments (0) - Releases

Release details:

- **Release date:** May. 6, 2024
- **Product:** ESET Cloud Office Security 409.3
- **Type:** Feature Release
- **Availability:** Global

Changelog:

- Added: Ability to send encrypted Syslogs to user defined network endpoints in CEF, LEEF and json formats.
- Added: Automatic email re-scans for specific emails in order to decrease the number of false positive spam (missed spam)
- Updated: ESET HUB integration - Improved “per company” access permissions support for ESET HUB customers
- Portal: Added "Sender" field to email details in Quarantine, Detections and Scan Logs
- Portal: Update of license management pages
- Portal: Refreshed charts components
- Portal: Add warning for GWS tenant if ECOS app consent revoked (e.g. app deleted)
- Portal: Adding info about infected mail body in scan detail
- Portal: Optimized certain portal requests in Quarantine and Detections logs to lower the chance of timeouts
- Portal: Added icon for Google Workspace suspended user
- Portal: Suspended companies are visible now
- Portal: Users can be filtered by clicking the company/site in the filtering tree
- Fixed: Other bugfixes and back-end improvements
