Release announcement: ESET Endpoint Antivirus/Security 6.6.2095.1 (Hotfix)

2020-08-19 - Mitchell | ESET Nederland - Comments (0) - Servicing release

Release notes:

- Fixed: Incorrect (red) color coding for non-critical events in Firewall or Network protection log.
- Fixed: Received e-mail notifications showing malformed subject if Cyrillic characters are used in corresponding template field.
- Fixed: Internal GUI engine crash when loading image elements.
- Fixed: Newly created scheduler policies in central management console display "last-run" date stamp on Endpoint even before first execution.

Installers can be downloaded from the official website or repository.
