Release announcement: ESET Endpoint Antivirus/Security 11.0.2044.0 (Servicing update)

2024-03-01 - Steef | ESET Nederland - Comments (0) - Servicing release

ESET Endpoint Antivirus/Security for Windows version 11.0.2044.0 has been released and is available for download.

Changelog

- FIXED: Occasional operating system freeze caused by Real-time File System Protection
- FIXED: Device control rules applied incorrectly for devices having non-standard characters in the serial number
- FIXED: EGUI interfering with Codegate's SAFE Panic button app
- FIXED: Real-time File System Protection module blocks access to office files created by Linux/Mac applications on the network drive
- FIXED: Firewall Filtering mode was set incorrectly to Interactive mode while importing XML configurations during installation
- FIXED: Export of the Performance exclusions list contains exclusions set by policy, even when the list is filtered to show only locally created exclusions
- FIXED: Reactivation of previously deactivated Endpoint license

Support Resources
