Release Announcement: ESET Endpoint Encryption 5.1.4.36 (Hotfix)

2023-02-16 - Mitchell | ESET Nederland - Comments (0) - Servicing release

Changelog version 5.1.4.36

- Fixed: A problem where Bitlocker could not be disabled or enabled when Endpoint Encryption was installed
- Fixed: A problem when a check disk was performed on boot. The system would hang once check disk completed
- Fixed: A problem using TPM encryption, where the system could go into automatic repair when using a disk with an SMI 2263XT controller
- Fixed: Some systems experienced blue screens (SYSTEM_THREAD_EXCEPTION_NOT_HANDLED) after performing SafeStart
- Improved: Hides Secure Data Go executable file on encrypted USB devices
- Improved: Improved self-enrolment logging
- Improved: Updated EULA

Installation Packages

- EEE v5.1.4.36 is now available on our official [download page](#).
