Release Announcement: ESET Full Disk Encryption 1.3.4.39 (Hotfix)

2023-02-16 - Mitchell | ESET Nederland - Comments (0) - Servicing release

Changelog version 1.3.4.39

- Fixed: Reinstalling ESET Full Disk Encryption would not apply the policy if one was set within the install package
- Fixed: Changing your password in Windows could disable the change password option in the pre-boot environment
- Fixed: A problem where BitLocker could not be disabled or enabled when Full Disk Encryption was installed
- Fixed: A problem using TPM encryption, where the system could go into automatic repair when using a disk with an SMI 2263XT controller
- Fixed: Some systems experienced blue screens (SYSTEM_THREAD_EXCEPTION_NOT_HANDLED) after performing SafeStart
- Fixed: A problem where changing the pre-boot password before the systems first reboot would cause the change password option to not display on the bootloader
- Improved: Various localization improvements
- Improved: Updated EULA
