Release Announcement: ESET Full Disk Encryption for macOS

2020-12-10 - Steef | ESET Nederland - Comments (0) - Releases

I am happy to inform you that we have successfully released the very first version of our long-awaited ESET Full Disk Encryption for macOS (EFDE for macOS). This product extends our EFDE product range (which was by now meant only for Windows platform) to cover also macOS.

The launch build of EFDE for macOS for ESET PROTECT and ESET PROTECT Cloud, has a version number 1.2.0.8.
A brief scope of EFDE for macOS 1.2.0.8 is as follows:

- NEW: Management of ESET Full Disk Encryption for macOS via management consoles
    - Management of native Apple´s FileVault2 encryption
- NEW: Management via ESET Protect/ ESET Protect Cloud policies
- NEW: Encryption tile on a Computer Details screen for comfortable and easy management
- NEW: Recovery password generated by console for immediate help for locked-out systems
- NEW: Encryption recovery methods also in Help section
- NEW: Decryption applicable via policy
- NEW: Separate EFDE user interface (application) on macOS endpoints
    - reporting on encryption/ decryption status
